

# HYGENICA IPC CURTAINS

## ANTIMICROBIAL DISPOSABLE HOSPITAL CURTAINS

**Hygenica offers a range of disposable privacy curtains, suitable to meet all your requirements.**

### Hook types

Hygenica offers a range of hook types to fit all forms of curtain tracking, eliminating the cost of replacing existing track and allowing you to order with confidence. Hooks are ultrasonically bonded to the curtain fabric for superior strength.

E-Fit - For use in 75% of UK tracking systems.

J-Fit - For CS tracking with wide openings.

U-Fit - When using existing hooks (ideal for GP surgeries)

C-Fit - For tracks that require a C type hook.

### Curtain sizes

A variety of widths allow our curtains to be the perfect fit, from large wards to doorways, giving patients privacy and dignity.

Large (LG)	7.5m x 2m drop (5.75 usable width)
Standard (ST)	4.5m x 2m drop (3.60 usable width)
Medium (ME)	3.6m x 2m drop (2.80 usable width)
Small (SM)	2.4m x 2m drop (1.80m usable width)

### Colors

From the popular medical blue to cream and lilac, our curtains allow you to tailor your preferred color scheme and can be useful when monitoring curtain changes.

LILAC

### Fantex® Antimicrobial Protection

Hygenica's IPC curtains are treated with Fantex®, Hygenica's proprietary and patented biocide. Fantex® is effective against a broad range of pathogens and remains active for the lifetime of the curtain. Fantex® fabric kills bacteria to log 3 (99.9%) in just one minute, reducing the risk of cross-contamination via touch-points.

### Additional features

Our polypropylene ultrasonically bonded Curtain Tidy (tie back) holds pleats neatly in place, keeping the curtain out of the way when not in use. Curtains come with labeling for installation monitoring as standard, and bespoke labeling is available on request.

Hygenica is accredited to ISO 9001 and ISO 14001.

Unique polypropylene curtain tieback.

Front pleat welded for a strong, robust design.

Robust hooks are ultrasonically welded.

Custom labeling available.

## Further information
